Bermuda Onion Seed

(Tenerife Grown)

Note the very convenient packages we continue to use for Bermuda Onion Seed. All deliveries will be packed in cases of two twenty pound tins. The growers like this handy package as there is no waste. The dealer prefers it as it makes an excellent neat display.

It is most economical, as only twenty pounds, a quantity readily saleable is opened at a time. Is this not much better than the bulk 50 or 100 lb. tin lined cases?

If your requirements are large let us quote you special prices.

Sweet Spanish Valencia Onion Seed

Here we have something really fine to offer you. Perhaps it costs a little more than the Western Reproduction—but it is worth it.

If you are not acquainted with our *Earliest Express Onion Seed* ask for a liberal trial sample, it is earlier than Crystal Wax. Only by seeing it grow can you realize how wonderful it is.
